RE: Application of Crexendo Business Solutions, Inc.  
Docket No. 2012-219-C

Dear Ms. Boyd:

As your records will reflect, this firm represents the Applicant in the above-captioned matter. It would appear as though the Notice has not been advertised by publication and as a consequence, the Applicant would respectfully request an extension of the deadlines in this matter. In particular, given the return date in the initial notice issued by the Public Service Commission, it would appear that a new Notice would need to be issued. However, the Applicant is prepared to publish the notice promptly and a lengthy extension of time would not be necessary. In particular, I would anticipate that the prefiling deadlines in this matter could be preserved.

Based on the foregoing, I would respectfully request that the Public Service Commission extend the deadlines in this matter as set out. I have consulted with the Office of Regulatory Service and they have no objection to extending the deadlines. If you or Ms. Hammonds have questions, please free to contact me.

Sincerely,

Elliott & Elliott, P.A.

Scott Elliott
